EDUCATION

University of Northern Iowa, Cedar Falls, IA

Graduation Expected May 2026

Majors: Computer Science, Psychology

Cumulative GPA: 3.88/4.00

TECHNICAL SKILLS

Data Tools: Tableau, Power BI, SQL Server, SAP HANA

Development Tools: Qualtrics, Docker, OpenAI, Elasticsearch

Programming: HTML, Python, Java, C#

Visual Applications: Figma, Adobe XD, Visual Studio

EXPERIENCE

Data Analyst, John Deere Tractor Operations, Waterloo, IA

Feb 2025 - Present

- Design interactive Tableau and Power BI dashboards to track performance, sales, and parts manufacturing
- Create, update, and maintain 25+ recurring audits, improving data accuracy across multiple business units
- Weekly update and send reports for keeping on-time delivery and goals to regional departments
- Utilize analytics techniques to clean, preprocess, explore, and analyze data sets to extract insights
- Present findings in meetings and translate key results into presentations, ensuring complex results are accessible to both technical and non-technical audiences
- Create a cross-application audit tool using APIs to work with data from a variety of platforms

Data Analyst Intern, MARSHALLTOWN, Marshalltown, IA

May – Aug 2024

- Designed and implemented a Blazor-based chatbot interface enabling users to query internal datasets through natural language, improving accessibility of company data systems
- Integrated Elasticsearch for semantic search and OpenAI for contextual responses to accelerate data retrieval
- Applied machine learning - enabled natural language processing tools to improve search relevance and information accessibility across internal datasets
- Created and implemented a data indexer in Elasticsearch to manage index and pipeline creation, deletion, and population
- Developed C# script to visualize locations on the map from IP addresses, adding regional insights to reports
- Built a dynamic Blazor-powered website for SQL Server data, enabling efficient large-scale searches
- Acquired and applied best practices in AI technology deployment

Project Assistant, Institute for Decision Making, Cedar Falls, IA

Jan 2024 - Jan 2025

- Participated in developing a marketing plan for an event at the Iowa State University - Iowa Rural Summit
 - Prepared detailed project presentations, including slide decks, data analysis, and reports, assuring clear communication with stakeholders and decision-makers
 - Supported strategic planning sessions for development organizations, focusing on action-oriented growth strategies for rural Iowa communities
 - Improved skills in time management, multitasking, and high-pressure work environments through mentorship with senior leadership
-

LEADERSHIP & ACTIVITIES

UNI Entrepreneurs Club, Active Member, University of Northern Iowa

Sept 2024 – Present

- Collaborate with students interested in startups, innovation, and business development through workshops and networking events

Students Connecting Students, Active Member, John Deere

Feb 2024 - Present

- Engage in career development through mentorship, networking, and collaborative student-led projects

Women In Computing (WIC), NISG Ambassador, University of Northern Iowa

Sept 2023 – Present

- Facilitate communication between WIC and student development organizations and support outreach for events such as “Take Apart Computer Night” and the SWE Girls Conference
